

# The **Free Way** to Data Virtualization

## **Denodo Express 9.x.**

The Denodo Platform, the industry-leading logical data management platform, is known for its robust capabilities that enable intelligent data delivery. As a testament to our commitment to democratizing data virtualization, we also offer a complimentary version called Denodo Express, which provides a taste of the power of our platform.

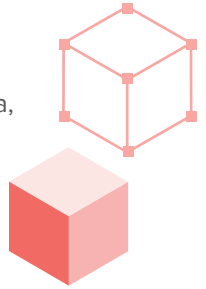

Denodo Express offers a streamlined solution for users looking to quickly understand and leverage data virtualization, whether for training, small departmental projects, or prototyping enterprise initiatives. With standard features for integrating diverse data sources, it provides a practical entry point to logical data management. A growing trend is using Denodo Express with the Denodo AI SDK to accelerate GenAI projects, enriching responses and minimizing hallucinations for more accurate, context-aware outputs.

## Denodo Express - Take the First Step to Data Virtualization

Denodo Express is offered as a comprehensive package that includes online **community-based support**, several easy-to-follow online tutorials, and how-to videos from Denodo experts. Denodo Express provides a seamless experience to ease into data virtualization and scale smoothly to experience the full power of the Denodo Platform.

- I Download, install, and use it for a first project in minutes.
- I Rapidly integrate data from disparate, heterogeneous data sources including on-premises, cloud, and big data.
- I Build a logical data warehouse, single view applications, or a data services layer.
- I Experiment with generative AI projects using the Denodo AI SDK to access, embed, and orchestrate data, enhancing accuracy and minimizing AI hallucinations.
- I Demonstrate value quickly to your team, your company, or your customers.

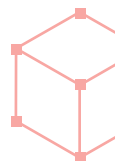

## Denodo Express Capabilities

Denodo Express includes the standard features of the Denodo Platform that enable users to start small and grow. For a complete list of the Denodo Platform 9.x features, read the Denodo Platform 9.x Datasheet.

	DENODO EXPRESS 9.X	DENODO PLATFORM 9.X
<b>License</b>	Free (1 year term, renewable at no cost)	<ul style="list-style-type: none"> <li>• Subscription or perpetual license</li> <li>• Enterprise unlimited license</li> </ul>
<b>Support</b>	Online community support	Standard and premium support through our support portal, emails, phone and online community
<b>VOLUME</b>		
<b>Concurrent queries</b> Number of queries that can be executed at the same time	Up to 3	Unlimited. Allows for scalable clusters and fault tolerant architecture
<b>Query results</b> Maximum number of rows returned by each query	Up to 10,000 rows	Unlimited
<b>Scheduler tasks</b> Number of batch jobs that can be scheduled	Maximum 1	Unlimited
<b>ADMINISTRATION &amp; DEVELOPMENT</b>		
<b>Design Studio</b> New web-based development tool with integrated SQL shell	Available	Available

	DENODO EXPRESS 9.X	DENODO PLATFORM 9.X
<b>Single Sign-On (SSO)</b> Integration with external identity providers via SAML and OAuth for SSO authentication among Denodo tools.	Unavailable	Available
<b>Denodo portal</b> Common entry point for all Denodo tools	Unavailable	Available
<b>Promotions between environments</b> Built-in capabilities to manage the promotion of elements and configuration from development to production	Unavailable	Available
<b>View parameters</b> Specify mandatory input parameters for each view	Unavailable	Available
<b>Support for loading extensions</b> Custom extensions created using our available APIs	Unavailable	Available
<b>Administration &amp; security</b> Number of security elements	Single developer / user	Unlimited users, roles, and groups
<b>Version control systems</b> Integration with source code management tools	Unavailable	Available
<b>ADVANCED CAPABILITIES</b>		
<b>Denodo AI SDK</b> Provides APIs to streamline and accelerate GenAI/RAG initiatives, enabling seamless data access, embedding, and orchestration across data sources for high-quality, context-rich responses.	Available	Available
<b>Integrated Data Catalog</b> Streamlines data access with automatic recommendations, enhanced collaboration, profiling, and smart search features.	Unavailable	Available
<b>Embedded MPP data lake engine</b> Provides data consumers with a highly scalable and performant SQL engine, based on Presto, with which to access data lake data, while simplifying data access through an intuitive GUI interface.	Unavailable	Available
<b>Denodo Assistant</b> Leverage AI to augment and automate complex data management tasks, including query guidance, natural language queries, and intelligent caching, boosting productivity and data accessibility for users at all skill levels.	Unavailable	Available

## Data Sources

Denodo Express 9.x can connect to the same data sources as Denodo Platform 9.x, including (but not limited to) relational databases, web services (REST and SOAP), multi-dimensional sources, big data sources, Microsoft Excel and other flat file formats, cloud and SaaS systems, etc. Check the full list in the Denodo Platform 9.x datasheet.

Comparison and exceptions of Denodo Express and the Denodo Platform are below:

	DENODO EXPRESS 9.X	DENODO PLATFORM 9.X
JDBC, Multi-dimensional, REST WS, SOAP WS, Hadoop, NoSQL, Active Directory, SaaS, delimited files, etc.	Available	Available
<b>ODBC sources</b> Access data through standard ODBC protocol	Microsoft Excel files and Microsoft Access databases only	Any source available
<b>Denodo Browser</b> Use Denodo Browser to access content online (XML, DF, JSON) <sup>1</sup>	Unavailable <sup>1</sup>	Available
BAPI, custom, Aracne, Google Search, ITPilot sources	Unavailable	Available
<b>JMS Listeners</b> Subscribe to queues and consume JMS messages	Unavailable	Available

<sup>1</sup> Denodo Express 9.x can access XML, DF, and JSON sources through native connectors, but it cannot use Denodo Browser navigation sequences to reach those files.

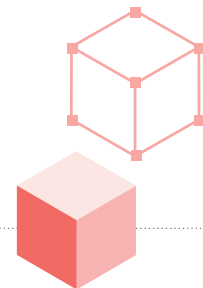

## DENODO EXPRESS IS SUPPORTED ON THE FOLLOWING OPERATING SYSTEMS:

### I Microsoft Windows (32-bit and 64-bit platforms)

- Windows 11 and Windows 10
- Windows Server 2022, Windows Server 2019, Windows Server 2016

### I Linux (32-bit and 64-bit platforms)

- Amazon Linux 2023
- Ubuntu 20.04 LTS or later
- CentOS 9.x and 8.x
- Red Hat Enterprise Linux (RHEL) 9.x and 8.x
- Oracle Linux 9.x and 8.x
- SUSE Linux Enterprise 15.x

Denodo is a leader in data management. The award-winning Denodo Platform is the leading data integration, management, and delivery platform using a logical approach to enable self-service BI, data science, hybrid/multi-cloud data integration, and enterprise data services. Realizing more than 400% ROI and millions of dollars in benefits, Denodo's customers across large enterprises and mid-market companies in 30+ industries have received payback in less than 6 months.
