

The background of the top section is a dark blue field filled with numerous vertical lines of varying heights and colors (red, orange, yellow, green, blue, purple). At the base of these lines, there are colorful, wavy patterns that resemble data points or a digital landscape. The overall effect is a dynamic and futuristic representation of data.

The **Free Way** to Data Virtualization

Denodo Express 9.x

The Denodo Platform, the industry-leading logical data management platform, is known for its robust capabilities that enable intelligent data delivery. As a testament to our commitment to democratizing data virtualization, we also offer a complimentary version called Denodo Express, which provides a taste of the power of our platform.

Denodo Express provides standard features to help users quickly understand and leverage the power of a logical approach to integrating and managing a variety of data sources. It is free to download and easy to deploy, simplifying your entry into data virtualization, the first step in logical data management.

Denodo Express - Take the First Step to Data Virtualization

Denodo Express is offered as a comprehensive package that includes online **community-based support**, several easy-to-follow online tutorials, and how-to videos from Denodo experts. Denodo Express provides a seamless experience to ease into data virtualization and scale smoothly to experience the full power of the Denodo Platform.

- I Download, install and use for a first project in minutes.
- I Rapidly integrate data from disparate, heterogeneous data sources including on-premise, cloud, and big data.
- I Build a logical data warehouse, single view applications, or a data services layer.
- I Demonstrate value quickly to your team, your company, or your customers.

Denodo Express Capabilities

Denodo Express includes the standard features of the Denodo Platform that enable users to start small and grow. For a complete list of the Denodo Platform 9.x features read the Denodo Platform 9.x Datasheet.

	DENODO EXPRESS 9.X	DENODO PLATFORM 9.X
License	Free (1 year term, renewable at no cost)	<ul style="list-style-type: none"> • Subscription or perpetual license • Enterprise unlimited license
Support	Online community support	Standard and premium support through our support portal, emails, phone and online community
VOLUME		
Concurrent queries Number of queries that can be executed at the same time	Up to 3	Unlimited. Allows for scalable clusters and fault tolerant architecture
Query results Maximum number of rows returned by each query	Up to 10,000 rows	Unlimited
Scheduler tasks Number of batch jobs that can be scheduled	Maximum 1	Unlimited
ADMINISTRATION & DEVELOPMENT		
Design Studio New web-based development tool with integrated SQL shell	Available	Available
Single Sign-On (SSO) Integration with external identity providers via SAML and OAuth for SSO authentication among Denodo tools	Unavailable	Available

	DENODO EXPRESS 9.X	DENODO PLATFORM 9.X
Denodo portal Common entry point for all Denodo tools	Unavailable	Available
Promotions between environments Built-in capabilities to manage the promotion of elements and configuration from development to production	Unavailable	Available
View parameters Specify mandatory input parameters for each view	Unavailable	Available
Support for loading extensions Custom extensions created using our available APIs	Unavailable	Available
Administration & security Number of security elements	Single developer / user	Unlimited users, roles and groups
Version control systems Integration with source code management tools	Unavailable	Available
ADVANCED CAPABILITIES		
Integrated Data Catalog Streamlines data access with automatic recommendations, enhanced collaboration, profiling, and smart search features.	Unavailable	Available
Smart query acceleration Optimizes multi-source query execution through intelligent caching, cost-based optimization, and an AI-recommendations engine.	Unavailable	Available
Embedded MPP data lake engine Provides data consumers with a highly scalable and performant SQL engine, based on Presto, with which to access data lake data, while simplifying data access through an intuitive GUI interface.	Unavailable	Available
Embedded AI Streamlines data activities by enabling natural language queries via genAI, providing personalized dataset recommendations, and offering smart SQL building based on previous activity.	Unavailable	Available

Data Sources

Denodo Express 9.x can connect to the same data sources as the Denodo Platform 9.x, including (but not limited to) relational databases, web services (REST and SOAP), multi-dimensional sources, big data sources, Excel and flat files, cloud and SaaS, etc. Check the full list in the Denodo Platform 9.x datasheet.

Comparison and exceptions of Denodo Express and Denodo Platform are below:

	DENODO EXPRESS 9.X	DENODO PLATFORM 9.X
JDBC, Multi-dimensional, REST WS, SOAP WS, Hadoop, NoSQL, Active Directory, SaaS, delimited files, etc.	Available	Available
ODBC sources Access data through standard ODBC protocol	Microsoft Excel files and Microsoft Access databases only	Any source available
Denodo Browser Use Denodo Browser to access content online (XML, DF, JSON) ¹	Unavailable ¹	Available
BAPI, custom, Aracne, Google Search, ITPilot sources	Unavailable	Available
JMS Listeners Subscribe to queues and consume JMS messages	Unavailable	Available

¹ The Denodo Express 9.x can access XML, DF and JSON sources through the native connectors, but not use Denodo Browser navigation sequences to reach those files.

Denodo Express is supported on the following operating systems:

I Microsoft Windows (32-bit and 64-bit platforms)

- Windows 11 and Windows 10
- Windows Server 2022, Windows Server 2019, Windows Server 2016

I Linux (32-bit and 64-bit platforms)

- Amazon Linux 2023
- Ubuntu 20.04 LTS or later
- CentOS 9.x and 8.x
- Red Hat Enterprise Linux (RHEL) 9.x and 8.x
- Oracle Linux 9.x and 8.x
- SUSE Linux Enterprise 15.x

Denodo is a leader in data management. The award-winning Denodo Platform is the leading data integration, management, and delivery-platform using a logical approach to enable self-service BI, data science, hybrid/multi-cloud data integration, and enterprise data services. Realizing more than 400% ROI and millions of dollars in benefits, Denodo's customers across large enterprises and mid-market companies in 30+ industries have received payback in less than 6 months.
