

## Customized Solutions for Sustainable Growth

“

Raj Juttukonda  
CEO

*Right Angle Solutions partnered with Denodo to accelerate and scale their clients' ambitious goals of democratizing data across the enterprise. With Denodo's powerful platform, their go-to-market timeline was significantly shortened, enabling clients to focus on refining their strategies rather than dealing with complex technical hurdles. This partnership ensures smoother, faster implementations that drive business success.*

Right Angle Solutions Inc. excels at providing customized data management solutions designed to optimize data organization, storage, and analysis. Our innovative methodology emphasizes simplifying data workflows, safeguarding data integrity, and supporting smarter decision-making. Through tailored solutions, we empower businesses to fully harness their data, improving efficiency and generating valuable insights for growth, all while adhering to a flexible, technology-agnostic approach.

### What Business Challenges Are Solved?

**Data Consolidation & Scalability:** Many organizations struggle to consolidate data from diverse sources while maintaining accuracy. Our solutions allow clients to seamlessly merge data, offering realtime insights and enabling informed decision-making at scale.

**Operational Efficiency:** For industries facing inefficiencies in demand forecasting and planning, such as the food and beverage sector, we optimize demand planning by leveraging advanced data analytics. Our expertise improves forecasting accuracy, reduces waste, and drives operational efficiency, ensuring companies are better equipped to meet customer demands.

**Digital Transformation:** Businesses often grapple with legacy systems and outdated processes that limit innovation. We helped digitize a U.S. county with a cutting-edge web application, streamlining workflows, enhancing service delivery, and transforming their operations into a modern, efficient digital ecosystem.

### Our Solution

Our tailored, scalable solutions are uniquely suited to solve these challenges, ensuring businesses achieve sustainable growth and operational excellence. At Right Angle Solutions, we believe every client's needs are unique, requiring tailored approaches. We don't simply provide services – we craft personalized solutions. Our focus isn't on how long we work together, but on solving the real problem, no matter the scale. Your challenge, our solution.

Right Angle Solutions' core competency lies in Data Management. We guide clients on optimizing the use of their extensive data resources. Data Virtualization enables access to this wealth of information without the need for extensive data pipelines. Furthermore, Metadata is most effective when stored near the source data rather than within reporting tools. This approach ensures scalability while fostering front-end solutions that remain technology-agnostic.

## About Denodo

---

Denodo is a leader in data management. The award-winning Denodo Platform is the leading logical data management platform for delivering data in the language of business, at the speed of business, for all data-related initiatives across the organization. Realizing more than 400% ROI and millions of dollars in benefits, Denodo's customers across enterprises in 30+ industries all over the world have received payback in less than six months.

### PRODUCT OVERVIEW

The Denodo Platform provides a centralized data access layer that enables all users to find, query, integrate, and securely share datasets, in real time, with breakthrough cost-effectiveness.

This enables organizations to acquire timely, trusted, integrated datasets for faster analytics and informed business decisions, while building a strong foundation of AI-ready data to accelerate generative AI initiatives.

### SOLUTION HIGHLIGHTS

**<6** months  
payback

---

**65%** faster than  
ETL

---

**30%** less data  
preparation

## What Are the Features and Benefits of the Combined Solution?

Data Virtualization and Data Management services play a crucial role in helping clients consolidate data from diverse sources efficiently. Leveraging Denodo, our solution enables rapid time-to-market without sacrificing the integrity of master data from source systems. Our expert Enterprise Data Architects utilize Denodo to implement scalable Metadata solutions that provide a single version of the truth. By integrating disparate data while maintaining consistency, we empower businesses to make data-driven decisions faster and more accurately. This approach not only enhances operational efficiency but also ensures long-term scalability, enabling clients to adapt to evolving data management needs with confidence.

## About Us

---

Right Angle Solutions Inc. is a leading provider of data management and technology solutions, specializing in Data Virtualization, Data Architecture, and Information Dissemination. With a client-centric approach, we tailor our services to meet the unique needs of organizations at any point in the Data Continuum. Our solutions enable businesses to leverage their data efficiently, enhancing decision-making processes and driving long-term growth. At RAS, we prioritize scalability and adaptability. Our expertise spans various tools and technologies, including Denodo, to deliver high-speed, data-driven solutions that maintain the integrity of master data. We are committed to helping clients consolidate and utilize diverse data sources without compromising accuracy, ensuring a single version of truth. Our leadership team brings decades of combined experience in data management and IT consulting. With deep knowledge of enterprise data solutions, our leaders have successfully guided numerous businesses through complex data challenges. Their extensive expertise enables RAS to deliver strategic insights, scalable solutions, and a forward-thinking approach that helps clients stay ahead in an increasingly data-driven world.
